

Title - DC-3 Propeller Blade Sculpture
Designer - FlightStudio
Materials - Original DC-3 propeller blade, finished to a mirror shine with black stable foot
Measurements - 66" x 11"

History Douglas DC-3

The Douglas DC-3 is an American fixed-wing, propeller-driven aircraft whose speed and range revolutionized air transport in the 1930s and 1940s.

Because of its lasting impact on the airline industry and World War II it is generally regarded as one of the most significant transport aircraft ever made.

Many DC-3s are still used in all parts of the world.
